The "Original Package" Device The people of the State will heartily applaud Governor Bodwell for the emphatic nanner in which he has requested the officers of the State and County to proceed against the rumseller Burns, of Augusta, who has assumed that the United States Government would maintain a partnersh p in his attempt to flood the State with intoxicating liquors in the "original pack-

The engle of 1797 went for \$11. A Mexican twenty pesos of 1806, with the head of Maximilian, brought \$20.25, or \$3.25 above its face value. A Nicaragua doubleon of 1809 sold for \$14. A dollar of 1836, with a flying eagle on the reverse side, brought 86.60. Others went for little more than the face value.

The Republican Club of the city of New York has decided to send out letters to various Republican clubs in the United States in order to ascertain if there is any general sentiment among them in favor of Night: these organizations holding a National convention. The primary object of holding the convention is to consider the pro-priety of organizing in the various btates large number of Republican clubs, and to determine the best, manner of conducting their work; also, to devise some system that will conduce to the efficient cooperation of these clubs in State and Federal affairs. It is proposed that each Republican club send five members, the delegation of each club to cast one vote, the convention to be held in New York city next October or November. Harmonious Democrats. [Wash. S recial to Beston Travel or.] most interesting political revelation

is that just made by an Ohlo Democrat, of an organization in Washington whose avowed object is to defeat the renomina tion of A.r. Cleveland. The Onio man showed a printed circular which embodied all the grievances against the Administration, and which it is intended to discominate tion, and which it is inter-ded to discominate all over the country. Strange as it may seem for the party to scatter broadcast campaign documents against like t, ocular demonstration admits no doubt. The Goverdor has done right in dealing with this most deflant and flagrant violation of our laws in a vigorous and determined manner, and he will be cordially sustained by public sentiment in thus squarely meeting the issue raised by the attempt to inaugurate a wholesale and retail truffic in liquors throughout the State upon a quibble that we believe will be swept away whenever the question shall be tested.

positions. As both Mr. Bayard and Mr. Garland seem to be of the same mind they might give the country an agreeable surprise by retiring to private life. There is no law that we know of that requires them to sacrifice their happiness by a continuance in public office.
